

November 5, 2010

To Whom it May Concern:

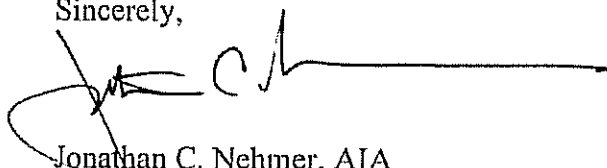

My firm has worked with Triad Construction Services, Inc. on several projects over the past 15 years. Triad has performed admirably on every project that Jonathan Nehmer + Associates has awarded them. They particularly excel at major renovations of existing structures and facilities that involve a combination of additions and renovations.

Their staff has been able to renovate several multi-unit properties for us while keeping the projects open and operating. They have worked for me on projects where I was the Architect-of-Record and on projects where I was a principal owner.

In all cases their professionalism and ability to deliver on time and on budget is exceptional. Whenever there was an unforeseen situation, which happens a lot with renovations, Paul O'Connell was there, personally, to mitigate the issue. I don't think I have ever heard him say that something was impossible.

I would highly recommend Triad Construction for any renovation/addition/new construction project.

Sincerely,

Jonathan C. Nehmer, AIA
President
