

Dear Robert:

I recently moved into my dream house which has been in the works for over a year now. Several months ago when I first met with you, I picked out some tile, carpet and granite all with a vision of how I wanted this to look when everything came together. You were friendly, humorous and very patient with me and today I want to tell you that my house is done and I can't say enough about how pleased I am with the work that Extreme Construction has done for me.

Originally when I was picking out my granite countertops, I had not decided on a backsplash and when it came time to finalize all my selections, you recommended a particular stone. I wasn't able to see the actual stone at that time but based on your recommendation along with the particulars that I wanted to incorporate in the installation, I felt comfortable that it would be OK. Well let me just say that when I first saw it, I was amazed. It was simply gorgeous and I couldn't get over how well it complemented my counter tops.

You've been a great company to work with and I truly appreciate the little extras you do to make your customer happy. I would recommend you to my best friend and anyone else for that matter. I wish you and your company great success and I wanted to express my sincere appreciation for making my home, my dream house.

Dianne Fenno
