

I have been in the building industry for 17 years and I have never met or had the pleasure of doing business with a more professional company than Aqua Sphere. I have enjoyed every second working with Alan Branson. He is a true gentleman first and foremost. The knowledge that Alan has amassed over the years is quite impressive. His ability to convey that wisdom to my clients and I is remarkable as well. We have had many in- depth discussions and I always walk away with the feeling that I have just been educated by a really great professor. There is no doubt in my mind he is the leader in water treatment and purification.

When it comes to home building and commercial construction, there is no topic more important than water quality. There is nothing more crucial than the health of your clients and their families! Water is the most essential element in life and no one understands this more than Alan.

Having Alan on the job has given me an incredible sense of comfort and confidence.

Alan and his team maintain the highest level of knowledge, professionalism, pride and integrity. I can always count on Alan and I am proud to call him my friend! Alan and Aqua Sphere are not just purifying water for people! They are improving their **“Quality of Life!”**

Sincerely yours,

Raymond Hall
