

CAPITOL FLOOR PREPARATIONS INC.

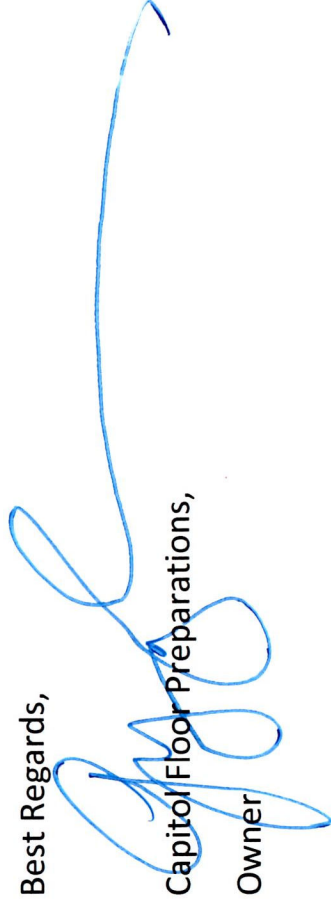

www.floorpreparations.com

Dear Colleen,

I had been in flooring/ underlayments trade for many years working for other companies prior to starting my own company. I always knew how valuable The Blue Book was and the benefits that came with it! When I decided to go into business for myself, I called the Blue Book to place an ad. Little did I know, it was the last day to place an ad...actually down to the hour. I just "had" to be in the next publication, there was no web site back then. Lucky for me, I got in the book.

Since that time, my business has grown, much of it due to The Blue Book. I have a very nice ad program in the book and on line. I now have a premier position on line. The money I have invested, had more than paid for itself. It is the BEST form of advertising that I do. I have received hundreds of invitations to bid and phone calls. In return, I get work!

Best Regards,

Capitol Floor Preparations,
Owner
