Re: ROI

I want to personally thank the Blue Book Network for the terrific impact that we've garnered in the marketplace as a result of our Business Builder Program with your network. We consistently receive Project Lead opportunities that are specifically relevant to our core business, which has allowed us to bid in a timely fashion on projects that we want to pursue. We've been awarded several of those projects in the last calendar year and have also picked up a couple of significant projects from phone calls that we've received as a result of the exposure we're enjoying from the hardbound Blue Book and of course our presence on TheBlueBook.com

Thanks again for your terrific service. Nothing has impacted our start-up operation in a more positive fashion.

Sincerely,

Bart Butler
