Harrisburg, PA 17111

Dear Geraldine,

I am writing this letter to express our enthusiasm for your BB-Bid product. We utilized BB-Bid to message our projects and it is extremely beneficial as we enter new market places to help find qualified local subcontractors. The responses on BB-Bid are very high compared to other software that we have used through the years. This would be all due to the fact of the accessibility that BB-Bid offers.

Additionally, the Syncwear software allows us to upload our plans, specifications, and addendums, to easily distribute documents to subcontractors and manage any changes effortlessly.

Best of all the programs are user-friendly and give us great results.

Sincerely,

A handwritten signature in blue ink that reads "Katherine E. Reinert".

Katherine Reinert
Project Administrator
