

Woodmont Properties utilize the Blue Book's BB-Bid to bid all of our subcontracting trades. We also use the Messaging tools to send out project plans, notices, and memo's.

BB-Bid is an extremely simple and effective tool to manage our bid process for multiple projects which include multiple trades, simultaneously. All of the project plans are centrally located in the free Online Plan Room so all of our subs can access the plans with a click of their mouse. The volume of bids produced would not be achievable if not for Blue Book's BB-Bid system. Our personal customer service contact has taken the time to understand our business needs and provide us with the tools to achieve our goals.

Woodmont Properties looks forward to an exciting and prosperous 2013 with a partner as Blue Book.

Sincerely,

Tony Ciallella
