Attn: Mary Jane Ziegler

Dear Mary Jane,

In 2015, we took advantage of the opportunity to move into the #1 position in Insulation-E.I.F.S. in the Metro DC market.

In the past year, our Proview has been viewed over 1300 times. We attribute this upswing in views and the increase of bid requests to this upgrade. Earlier this month, we decided to increase our presence in the Baltimore Metro area and upgraded to a Platinum position which will also make us #1 in this market as well. It only takes a few added projects to pay for this service we receive from the Blue Book.

From Blue Book's training and excellent support, our experience with the Blue Book has been top notch. We have established new relationships that we would not have made otherwise.

Sincerely,
William Dick
