

March 2017

TO: The Blue Book Network

At Corvias, we pursue the kinds of partnerships and long-term relationships that substantially improve the quality of life for people. We seek to build more dynamic and resilient communities. Through responsible management of public resources. Through local job creation. Through financial strength and sustainability.

We are a partner in the Prince George's County Clean Water Partnership (CWP) that was developed as the solution to the County's stormwater regulatory challenges.

Our program has a huge focus and goal of hiring small minority businesses and we are here for 30 years!

We love the Blue Book Network Showcase events to meet new contractors to help grow our teams. We have made some great connections there the past 2 years as an exhibitor. We look to continue our relationship with the Blue Book and its network members in 2017 and beyond!

Sincerely,

Tasha Brokenberry

Community Outreach Manager
