

# SPEIGHT ARCHITECTS

Dear Friends;

Those of us in the building industries would like to thank Shelly Masone, 443-534-6276 [smasone@mail.thebluebook.com](mailto:smasone@mail.thebluebook.com), Mid-Atlantic General Manager The Blue Book Network and The Blue Book [www.thebluebook.com](http://www.thebluebook.com) for the excellent opportunities they provide enabling mutually beneficial connections.

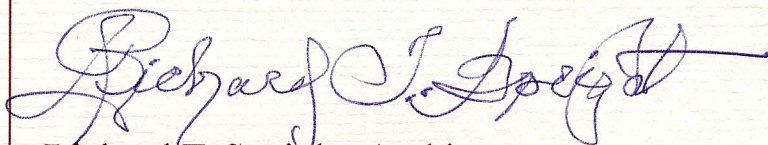

My name is Richard T. Speight, 301-588-1002 [www.SpeightArchitects.com](http://www.SpeightArchitects.com) [www.EmbassyHomePlans.com](http://www.EmbassyHomePlans.com) and I have specialized in quality residential architecture since 1974. I have 350 +/- home plans , many with 2X4 exterior stud walls.

Kyle Ball, 443-459-5804 [kyle@camerongroupllc.com](mailto:kyle@camerongroupllc.com) came by my booth at The Blue Book convention and Kyle said that Icynene [www.icynene.com](http://www.icynene.com) could provide the code required R-20 insulation in 2X4 exterior stud walls. This can save architects an unbelievable amount of redrawing.

Kyle gave me contact information for the Manufacturers Representative for Icynene, Mark Barnoski 410-984-0257 [mark@marcosalesinc.com](mailto:mark@marcosalesinc.com) and I put Mark in touch with, Chris Massey 210-408-7322 [chris@ceacademyinc.com](mailto:chris@ceacademyinc.com) Educational Events Program Manager with Ron Blank & Associates, Inc. [www.ceacademyinc.com](http://www.ceacademyinc.com) and this has led to Icynene providing 22 Continuing Education events in several locations.

Thanks to Shelly Masone and The Blue Book, this one contact has benefited many.

Wishing You and Yours Prosperity and Good Health,

Richard T. Speight, Architect
