

Testimonial

To Whom It May Concern,

QSS has been on The Blue Book platform since 2008, not too long after our inception in 2004. With its 104 years of credible work in The Building & Construction world, this is the best platform in the market place for us to reach out to Government, Municipals, Institutions, Developers and most importantly Sub Contractors who are the foundation of our success.

The tools from The Blue Book platform allow us to message our projects and gather bids in a secure and organized manner accompanied by a very informative dashboard.

Most importantly, The Blue Book is not just a directory. It is a networking platform be it the messaging platforms, the Showcases or my Account Manager who go above and beyond to help me network with the market place.

Sincerely,

Pramod Banavar
President QSS International Inc
