

SENATE OF MARYLAND

OFFICE OF THE PRESIDENT

October 3, 2017

Mr. Edward Day
Acting Assistance Parks Division Chief
Natural & Historical Resources Division
6707 Green Landing Road, Upper Marlboro, MD 20772

Dear Ed:

Just a short note to thank you and the Maryland-National Capital Park and Planning Commission for the amazing preservation of the historic Chapel at Compton Bassett. Having visited the property in its damaged state, it is most remarkable to see the exceptional restoration work. An outstanding success, I truly appreciate the hard work and dedication of all those who participated in this important project.

As you know, to be a Catholic prior to the Revolution meant holding religious services only on private property and this chapel is important not only to our County's history but also to the history of our State and Nation. Hopefully we can now focus on the Hill home as the complex means a lot to our Prince George's County heritage.

Yours very truly,

A handwritten signature in red ink that reads "Mike".
