To whom it may concern:

Custom Built Screen Enclosures recently replaced my pool enclosure. They used the finest of materials and the workmanship was excellent.

My pool has an infinity edge and they crafted a very large picture window over the center of the pool. I am betting that I have the most beautiful pool enclosure in Cape Coral.

There were some delays due to the extreme heat and related thunderstorms and rain. However the actual construction was less than 10 days including removal of the old enclosure and installation of the custom made replacement cage.

I highly recommend Custom Built Screen Enclosures for you pool cage needs.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Baillie".
