

I can't remember how I found Vince Harding, but I got very lucky. My husband and I have a start-up candy company, and Vince has helped us every step of the way with our insurance needs. When we switched warehouses, Vince helped us navigate the contract and made sure our inventory continued to be adequately covered at the new warehouse. When a retail chain has insurance requirements for its vendors, I send the list over straight to Vince and he makes sure we meet all the requirements. Vince has also helped me with questions regarding insurance coverage for non-employer owned vehicles driven by an employee. Right now, Vince is helping to make sure that we have adequate coverage against liability that could be incurred by independent contractors (college students) who do demos for us. But Vince earned my everlasting loyalty when he got us an emergency insurance policy for a second product we launched. To the FDA, this product is a food. But to Hartford, our business insurance provider, it was a supplement, and therefore not covered under our policy. We needed to scramble, since we were launching the product in a few days at a big show. Vince, even though he had just had surgery and was out of the office, somehow managed to find us a policy the day before the show. I remember how exhausted he sounded when he called me to tell me the good news. He really went out of his way to help us. A few weeks later, Vince helped us find a still better policy, which we just switched to, that covers both of our product lines and saves us a lot of money."

"I have been working with Vince Harding and the agents at Harding Insurance for five years now. It's nice to work with agents that go above and beyond like Harding Insurance does to make sure the proper coverage is provided in the policy for all their clients. The insurance industry needs more agents/agencies who take pride in providing excellent customer service. I look forward to working with Harding Insurance to provide proper coverage to their insureds.

“Vince has far exceeded my expectations as a service provider. What most impresses me is his eagerness to answer any question I may have at any time. Despite how busy he may be, when I speak with him his voice expresses genuine pleasure and, more importantly, I know in that moment that he is giving me 100% of his attention and focus. Furthermore, integrity is paramount for Vince. This gives me the satisfaction of knowing that I will always receive the best and highest-quality service.”

Amy worked really hard to keep our business. I asked a LOT of questions and she either answered all, or directed me in finding the answers to my questions. I felt that I got honest answers and as a result Amy earned my trust. As a small business owner I want to congratulate you on having such a great and capable employee. Hard to come by and very much appreciated in these difficult times. Thank you.

Tom,

You are very welcome :) You were very patient and I appreciate that, and I know DJ does too! I am very happy with the way you do business with people so I will send some your way when I can.
