To Whom It May Concern,

I am the owner of Nova Painting located in Wyomissing, Pennsylvania. I have been using the Blue Book for approximately 3 years with great success. I was referred to the Blue Book from another contractor who also took his business to the next level with the resources the Blue Book provides. In my first year of business using the Blue Book and their view 360 software I was easily able to pay for my subscription ten times over. This is a great resource for those looking to proactively engage in commercial projects, and expand their current book of business. I would highly recommend this service to anyone looking to increase their potential, it has become an invaluable asset to my business allowing me to easily network and connect with decision makers from a wide network of construction firms.

Thank You,
Brett Novakovich
Owner
Nova Painting
