

First Realty Management

YOUR PROPERTY MANAGEMENT SOLUTION.

February 12, 2014

To Whom it may Concern,

For the last 30 years I have been utilizing The Blue Book to grow our subcontractor base and find qualified subcontractors in the area. Unlike other services that are regional, The Blue Book offers a data base with subcontractors and suppliers nationwide.

The online services have given us the tools to provide quality proposals to clients due to the increased response to Bid Invitations while utilizing the service for plan distribution. In addition to the vast data base and easy to navigate website, The Blue Book also offers a personal touch by assigning account managers, that go above and beyond to get us in touch with qualified subcontractors with little or no notice.

The Blue Book is an essential part of our bidding process and we look forward to what the future holds with our partners at the Blue Book.

Best regards,

Bob Morelli
