Subject: Tank Inspections

Jim,

I want to pass along my appreciation to the dive team that inspected our tanks last week. They did a great job! It shows that US Underwater Services takes their work seriously, and that they take pride in what they do! This job went as smooth as I could have expected, and for this reason, we will not hesitate to call on your team again when needed. Again, thank you for a great job.

As for the inspection reports, is there any chance I can receive them by 4/11/13? I have a meeting the following week that these will be needed for.
