To Whom It May Concern:

This letter is our business recommendation for Mr. Angelo Salamanca and Fundisa Restoration Group. I selected Mr. Salamanca of Fundisa Restoration Group to work on several projects; below is a list of projects he has worked on:

Major Pharmaceutical Company located in Pennsylvania focusing on white texture ceiling asbestos paint removal, linoleum associated with mastic, and white asbestos pipe sealant.

Major Chemical Company located in Kentucky focusing on friable asbestos vessel insulation and pipe insulation removal.

Major Petrochemical Company located in Illinois focusing on Asbestos roofing material removal.

I found the process of working with Fundisa Restoration Group to be exceptional in every way. Mr. Salamanca is very personable and professional. He takes his work very seriously and is passionate about providing outstanding service. He always strives for excellence in management for each project, ensuring that safety is always a priority, and work processes are followed.

I and my entire team would highly recommend Mr. Angelo Salamanca and Fundisa Restoration Group to anyone looking for a professional, ethical, knowledgeable, committed and effective group of professionals that also have an outstanding attitude and solid reputation for execution. We were truly pleased with the outstanding person Mr. Angelo Salamanca is and how Fundisa Restoration Group provided an excellent job for our company!

Sincerely,

Stephen J. King
