Lisa Schmidt
The Blue Book Building and Construction Network
New York Headquarters Office
P.O. Box 500
Jefferson Valley, NY 10535

Lisa,

Thank you for guiding us in the right direction in regards to the Blue Book network. We are truly happy to have found such a team player who is there to help us all the time without physically being in our organization.

When it came time for my business partner and I to expand our business about a month ago we starting looking to the lead generating websites. We are so happy we found more than a lead generator with the Blue Book Network, and more importantly Lisa Schmidt. Since our initial meeting you have been such a great help on taking our business to the next level with your expertise and knowledge of the Blue Book Network. In the short time we have worked with you we have achieved exactly what we were looking for and more! We gained great exposure to out of state contractors through features like Pro View that you offer, and more projects to bid on.

We were awarded our first projects for a contractor in Pennsylvania for \$27,000 the same week of meeting you, and had it not been for you, and you getting us off on the right foot we would have never known about it.

I am so excited to be working with you and sure of our great working relationship to come. Since we met you, you have never stopped working to help us reach our goals. From letting us know about projects that might fit our criteria, to going out of your way to send us a recommendation template for the upcoming General Contractor Convention to hand out while there.

Axiom Power wishes you great success in helping others and welcomes you to the team!

Sincerely,

A handwritten signature in blue ink that reads "Gregory S. Bennett". The signature is fluid and cursive.
