

TRUE Power Solutions

"Powerful People, Powerful Results"

EC13005533

This letter is in reference to our recent placement and experiences in the " Who's Who in Building & Construction " magazine.

We were very skeptical at first but knew from our past results dealing with Lisa that the product was worth looking into when she recommended it.

From the conception stages to proofing, The Blue Book Network Team made the complete process very user friendly with minimal involvement. Completely streamlined would be an understatement.

We received tremendous feedback from our current clients as well as extensive exposure across the board when the Showcase Magazine came out.

This product has established an emotional & sales milestone that we are very proud of and are very thankful to Lisa and her team for guiding us to another game changing product!

As commercial contractors we find the market flooding with tons of time wasting services, incompetent products as well as fast talking sales people. It was very refreshing to get the return on investment that we have gotten from The Blue Book as well as their Showcase Magazine. We highly recommend it to anyone looking to increase their client exposure and exponentially increase their sales volume.

We are very appreciative to Lisa Schmidt & her team, they are a very strong asset and we are honored to be part of their network!!!

"Powerful People, Poweful Results"

Sincerely,

Omer Mahmud
