Dear Michael Shetlar,

Miracle Maintenance has been a member of The Blue Book Network since 2008, and I believe it is the best marketing investment we have in that time. The daily leads provide us opportunities to make new contacts with companies that we have not worked with in the past. We are able to quickly reply with a letter introducing our company and our services.

The best part of The Blue Book is the phone calls we get for work that needs to be done ASAP. Over the years Miracle Maintenance has landed multiple commercial construction and service projects directly from The Blue Book. Just today we got a project with the Hyatt Regency Phoenix for all the windows on their property, and they found us in The Blue Book.

Miracle Maintenance will continue to renew our program in The Blue Book because it is the most effective way to reach the commercial industry. We look forward to a long and profitable relationship.

Thank You,
