"The Blue Book Network has been helping my business connect with GC's since 2004. The online network gives us nationwide exposure to GC's that need subs for projects right here in our region. We are able to screen the ITB's we receive daily for project scope, location and view & measure the plans using the BB Bid online tools.

As a Blue Book Premiere Network member we are invited to attend the annual GC Showcase where we can network directly with GC's that we would not otherwise be able to meet in person and meet new subs in our region.

The Blue Book is an investment that pays for itself over and over in generating leads that we would otherwise not have been able to locate with our own internal resources."

Greg Madden  
President, Madden Fabrication
