5001 American Blvd. W., Ste 825  
Bloomington, MN 55437

Steve,

Rutledge Construction Company is a premier full-service General Contractor of Minnesota who has been servicing the greater Twin Cities Metro Area for over 60 years. Specializing in Remodeling, New Construction, Tenant Improvements, and Building Repairs. Rutledge Construction Company has built a reputation of providing customer satisfaction. With value engineering, hard work and personalized service detailed to their needs.

With that being said I wanted to let you know that The Blue Book has been a great asset to us over the past few years as we are able to extend our reach into the Twin Cities market. Rutledge Construction doesn't do a lot of advertising but we are glad to be a part of the Blue Book Network. We have had great success from our Proview over recent months and look forward to continued success from it going forward. Your knowledge of the Blue Book products has been a large part of our growth in reaching the correct clientele and educating us on the little things that Blue Book can continue to do for us. We are very pleased with your service and products and look forward to building on the great foundation we have already seen.

Thanks again for your continuous efforts to service Rutledge Construction!

Sincerely,

**Scott Bocks**
