

Dear Mike,

I just want to thank you for all your efforts this year in helping Interior Components Group get in touch with contractors in our area. We have built some solid relationships within the last two years by working with the Blue Book network. The online website is a great tool to get in touch with new and existing clients and the Vu360 takeoff software works incredibly well.

Over the course of the last two years, we have increased our yearly sales and expanded our facilities into a larger building to facilitate the additional work. We have found a variety of different types of projects through the Blue Book ranging from government centers, churches, manufacturing facilities, medical and dental facilities. Below is a sample list of a few projects we have found and been awarded through Blue Book recently:

The Crossing Church in Elk River, MN

Chisago County Government Center in Center City, MN

DaVita Dialysis in Cass Lake, MN

Virnig Manufacturing in Rice, MN

St. Croix Kid's Pediatric Dentistry in Hudson, WI

We hope to continue to find success working with Blue Book in the coming years, again, thanks for all the effort Mike!

  
Matt Barden, Senior Estimate
