Mike Olson,

I want to send a special thanks to you! When you took over to help with the Bluebook for our company. You took the time to go over the in's & outs of Bid Scope and Proview. This has become a valuable asset to our business model. It's greatly appreciated!!

Since our meeting on August 2<sup>nd</sup>, we have landed a project with 2 out of state GC's!!! DF Chase from Tennessee, the project is already underway. We have also locked in another project with a GC from Chicago (Clarion Construction) who contacted us after looking at our online ad (Proview). They are just waiting for the go ahead with the project to start!

Thanks for all your help. You stepped up and hit it out of the park!

Thanks,

Mike Heidelberger
