To whom it may concern:

I am the project superintendent for the YWCA Headquarters Project @ 1807 E. Wendover Avenue in Greensboro, NC. A few weeks ago I had a site visit from the local Blue Book AM. Chuck Harris stopped by the site to present Blue Book, help train their tools and offered to help me with any open trades we made need. At the time we needed a Light Gauge Metal Framing Contractor to install 500 ' of exterior 2 X 6 framing. Some of the sections were up to 25 ft tall.

Chuck was able to contact candidates and supplied me with a vendor that was awarded the project. At the time I did not know that Blue Book account managers provided this service and I have found Chuck and The Blue Book Network to be very helpful securing this trade.

Sincerely,

Will Anderson

Superintendent
