We value The Blue Book and its resources as a viable way to contact with subcontractors and suppliers. We use The Blue Book to find local and out of area contractors for the various commercial construction projects we do.

Nathan Claunch has been very helpful in the development of our vendor lists. We find our work flow to be more productive since we started using The Blue Book.

Thank you,

Dear Nathan,

I just wanted to take a moment and follow up on our meeting yesterday regarding the enhancements to your company's website. The new display tool and manufacturers search tool are going to be great! Thank you for taking the time to bring us up to speed.

As you know, S.C. Anderson, Inc. has been participating in The Blue Book's trade shows for the past three years. We were uncertain at first as to their value, however, obviously by our repeated participation; we have found them extremely valuable in enhancing our ability to reach out to new subcontractors that we would not have met any other way. To date, we have participated in the Woodland Hills, Orange County and Fresno shows, and are looking to the Fresno show again next week. Each time we have managed to walk away with hundreds of business cards, the majority of which we feel are valued additions to our pool.

Thank you again for your willingness to help us along with the transition of better utilizing your service. I am continually amazed that it's available and at no charge! Rarely does one find that something free actually has value. I just wonder, what will you guys think of next?

Please keep us in mind for the next Sacramento show. With the difficulties of today's market, I anticipate that we will want to expand our area of influence.

Kindest regards,

A handwritten signature in blue ink, appearing to read 'Mike Fausett', is written over a faint, larger blue signature that is partially obscured.

Nathan,

I want to thank you and The Blue Book for a great job. We received very fast response to the request for bids on our medical space tenant remodel project. We were also very impressed with the quality of contractors referred by your service. When we started with you we were using another service and from now on we will be using The Blue Book only.

Thanks again for a great job.

To Whom It May Concern:

This letter is to inform you that we do in fact use The Blue Book that has been sent to us. I would like to continue receiving the book.

Thank you,

Kristina Woolley

The Plant Operations and Maintenance Department at Bakersfield Memorial Hospital does use the Blue Book for various work and construction projects and we would like to continue to receive a copy each year or as it is updated.

Thank you,

Joshua Sharp
