RE: Letter of Recommendation for local AIA Chapter “Lunch and Learn”

Early part of this year **THE BLUE BOOK** put on a program at one of our monthly “Lunch and Learn” time slots. It is then, where our members discovered and learned more about their resources. Although their organization is well known, most of our members didn’t know what great tools they had for us. It was at the “Lunch and Learn” program where we got the opportunity to get educated on what the company had to offer for our profession and how it benefits the industry. The American Institute of Architects San Joaquin Chapter is committed to the future of the profession and is pleased to support **THE BLUE BOOK** on their request to put on at other AIA Chapters their “Lunch and Learn Program”.

Our chapter understands that the future of architecture is dependent upon our ability to educate our members. It is without reservation that our chapter recognizes the value that these “Lunch and Learn Programs” bring to our members and I encourage other local chapters to consider what **THE BLUE BOOK** has to offer.

Thank you for your consideration.

Sincerely:

Julie Jaurique-Chipps, Associate AIA
AIASJ Director of Emerging Professionals
