CAPITOL CITY GRANITE INC.

Curtis,

I am writing this letter just to let you know how much I appreciate what Blue Book is doing for us.

One of the biggest challenges that a business faces is how to market their service or product, and we have tried a lot of them. Yellow pages, home and garden shows, local remodel magazine, Service Magic, show rooms, internet. I have wasted a lot of money that I could have taken home and during these difficult times I have dropped them all but one: The Blue Book.

The Blue Book eliminated all the clutter and connected us directly to the GC. We need them, they need us. No time wasted. Not only that but BB stays ahead of the curve and offers us all the tools to facilitate the communication between Sub and GC. I have to upgrade my system just to keep up with the demand. What used to take days now can be accomplished in hours. You really have our interest at heart.

One simple example: We just got a job from a GC in Florida doing restaurant remodel here in Sacramento. Thanks to BB.

I believe that long term success depends on customer service and BB is allowing us to offer just that.

Thank You,

A handwritten signature in black ink, appearing to read "Marcos Gouveia", is written over a horizontal line.
