Beautiful shower doors!

Glass Castle was so great to work with from the first encounter at a home show right through to installation. They were patient and contributed valuable information while we choose just the right glass and style for our shower doors. We just love the doors and the purchasing experience was so pleasant. I highly recommend Glass Castle and in fact, have already passed along their information to people who have admired their work in our house.

Wonderfully professional

Dave and his team at Glass Castle installed Antique Mirrors in my home bar. Each phase of the job, from our first phone conversation, to measuring, to installing was wonderfully professional, beautifully done and a pleasure to experience. I couldn't rate them any higher. I only wish I had a mother pto jet for them to do!

A job well done

My overall experience with Glass Castle can be summarized in one word--outstanding! Both Chris and Dave were extremely helpful, explaining the available options, costs, and process. When the technicians came out to measure, both were conscientious and thorough. An added plus was that the glass came much sooner than expected. On installation day, the technicians arrived on time and worked diligently to complete the installation of my shower glass. The installation was perfect! I can honestly say that I made the right choice and can highly recommend Glass Castle.
