

Of all the years I have worked with this company, I have never seen such an increase in business before we enlisted the help of The Blue Book. At first, we were just using it as a way to look at bid invites and not really promoting our company. Since RJ Mazzatta has been working with us as our consultant, he has opened so many new doors that we would have never imagined opening without his help. He has helped point us in a better direction with promoting, advised us on how to reach out more effectively, and basically let our Pro-View do the work for us. The Blue Book has made it incredibly easy for us to promote our business and give customers and contractors alike a professional view of the work we do here.

Thank you!

Rio M Medina
