

# Testimonials

“We have had nothing but excellent service and quality installations when working with Erik Kadon and KES Electrical. They are responsive and dedicated to providing excellent service. I would recommend them for any of your electrical/energy solution needs.”

**Terry Howe**  
President, Big Chief, Inc.

“My company, Heartland Healthcare Services, contracted with Erik in May 2013 to replace all of our lighting fixtures and replace them with more efficient fixtures and bulbs. Not only did he finish well before our deadline, he went above and beyond the call of duty one night by coming back to work, after a storm came through Toledo, and finished installing our outside security lights at 2:00 am in the morning. I don't know too many contractors that would do that for a client.”
