Mr. John Kochmman
JK Construction LLC
10310 Evergreen Drive
Rowlett, TX 75089

Dear John,

I am writing to thank you for all you have done for Lutz Briggs Schultz and Associates, Inc. over the last two years in the Dallas Fort Worth, TX area. You have been a tremendous asset to our company as a ground superintendent/contractor. Although you were hired to do general construction duties, you had gone well beyond that position.

We greatly appreciate the pride and care that you had shown; for example, you stayed on site to help coordinate other sub-contractors, making sure their work was done correctly so that your work was not negatively affected, picking up materials that were not your responsibility so that the job could keep moving forward, and working directly with our customers to assure they were getting exactly what they were expecting. These are only a few of the reasons why we will continue to use JK Construction LLC for all our general construction needs in your area.

Recently, your company and ours received very high praise for the work completed on the Baylor Rehabilitation centers in the Dallas Fort Worth, TX area. Baylor's praises show that you are a valuable part of a great team that will work together for years to come.

Sincerely yours

LUTZ BRIGGS SCHULTZ
