

“The secret of success is to do common things uncommonly well.”
John D. Rockefeller

RE: Doc Magrogan's Oyster House
The Harvest Grill

To Whom It May Concern:

Thank you to the entire team for the exceptional job in building out our newest Harvest Seasonal Grill & Bar within the University of Pennsylvania at 40th & Walnut Street. When you guys say "Exceeding Expectations" you really mean it. I was blown away by your entire team's knowledge of what it takes to convert an existing space into a restaurant. I must say that working with a restaurant construction specialist like Frank Lott was a pleasure and it took a lot of pressure off my design and operations team. I have built many restaurants with other general contractors and things have never gone as smoothly as working with Frank and his team on this Harvest at UPenn. It is without reservation that I recommend Lott Restaurant Construction to anyone looking for someone to build their restaurant facility.

Sincerely,

David Magrogan
