---	--

Dear Lott Project Team,

Thank you for doing such an exceptional job with the construction of our first BurgerFi location located at 12th & Arch Streets in the Philadelphia. Your knowledge and experience in restaurant construction was invaluable, especially navigating us through the tough labor market with the unions in the city. We also appreciated your patience and professionalism when dealing with delays due to landlord issues and simultaneous construction in the attached space. We knew right away you were the contractor for us when you told us when we first met "that you could envision the finished product", even BurgerFi Corporate was impressed with the outstanding quality and beauty of the completed restaurant. Your teams ability to get things done in a timely fashion with such attention to detail is why we are committing our next build to Lott Restaurant Construction. We look forward to a long and mutually prosperous relationship.

Mack Amin
