

Natural perfection in a
hand-crafted *Stone Veneer*

Nature of our *Stone*

We defy you to spot the difference between our stone and Mother Nature's. It's not easy because we use larger molds than the industry norm, and non-repeating shapes and colors every 100 square feet. Our colors have a natural variegated look. Skilled artisans apply liquid tints that are absorbed into the stone, creating more durable colors that resist fading.

Canyon Ledge

Canyon Ledge connects rustic comfort to artistic style. Carved from the landscape of a naturally worn and weathered ledge, this style adds native warmth to any setting.
