"We had a roof installed by Alick Smith today. What a superb job! Due to unforeseen problems, additional men were sent in to work on the job. They worked from 7AM until 3PM. You would never know they were even here except that we have a beautiful new roof. They were the most reasonable of the bids that we acquired. We are totally satisfied with the crew and work that was done. Very, very professional and capable employees. From now on we will only call on Aleck Smith for our contracting needs."
