In Re: 1010 McFadden Avenue - Santa Ana, CA, and 2033 S. El Segundo St. - Los Angeles, CA

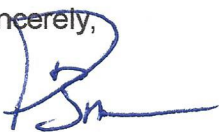

Dear Mr. Choppin:

This letter shall serve as acknowledgement of the outstanding work your company completed on the above referenced projects.

As a general contractor, we are always on the lookout for subcontractors that get their work done with little or no management from our team. We were highly impressed with your team, particularly your demolition operators. Your team produced the necessary manpower, equipment, expertise, team coordination, and communication skills that made the early phase of the projects a success. Finally, your company completed its scope of work in an expedient manner which helped us continue on smoothly with the rest of the project scope.

Please have this letter serve as a thank you for your team's good work on these projects. We look forward to working with you in the future.

Sincerely,

Butch Burnett
