

## **Testimonials:**

“We’re very happy with our experience with Nathan and the stamped & colored concrete patio he and his crew built for us. We got a few bids but chose Stone Concepts not only for the price, but because Nathan is knowledgeable and easy to work with. One of the other contractors we talked to kept trying to tell us what we wanted, dismissing our ideas as though it were his backyard and not ours. But Nathan listened closely to our ideas and helped us design the patio and walkways we wanted, and at the price we wanted to pay. The patio looks great and overall we’re very happy we chose to work with Stone Concepts.”

“I was immediately struck with Nathan’s cheerful and professional attitude. But what really sold me was his reasonable pricing and the thoughtful details that he put into creating our new driveway. Stone Concepts was MUCH more reasonable than the other bids, and allowed us to get the driveway we wanted for the price we could pay.”
