"Thanks George, you really saved me and the wife a lot of stress after we fired our first contractor. You cleaned up his mess, gave us our house back. The wife is happy, so you know I am overwhelmed. Thanks to you and your crew."

"George, you made it happen, you know me and my partner had our doubts about putting money into this house because we didn't think we would get our money back. You convinced us to do a few things differently. Turned out great HOUSE SOLD, MONEY IN BANK."

"George, when I met you I told you I had interviewed three other contractors. Not that you were the lowest, but somehow you made me feel like family, that you would take care of my house as though it was yours. Your advice was over the top, when the job was complete, the only thing I could say "awesome". I have passed on your company to several people already; I know that they will be calling. Thanks again."
