

## **Testimonials:**

*At FASTSIGNS, one of the most important factors to our success is the quality and commitment of our franchise partners – whether new or conversions. As highly driven strategic entrepreneurs, our franchise partners receive extensive training and support – and every possible competitive advantage.*

“FASTSIGNS made the whole idea of new product opportunities and new solutions come alive for our current clients. It was also a good fit because it brought a lot of new resources that we really didn’t have available to us before...training, research, new product support, operational support.”

"One great thing about being a FASTSIGNS franchise partner is that it gives me the ability to help my community. When I joined FASTSIGNS, I didn't just open another business - I became part of the growth of Durango. As a FASTSIGNS owner, I have daily opportunities to help other businesses and organizations thrive, which in turn keeps our community strong and growing."

"We were well prepared to open our business and we continue to receive terrific support for our day-to-day needs in our market. The success of our business is dependent on our focus in the market. If expectations are not met, it is because of our performance, not the franchisor."

"Choosing to start this business was one of the most important and worthwhile decisions I ever made. I knew I wanted to be with the leader in the field. That was FASTSIGNS in 1995 and it's even truer today. Marketing and technical support second to none, but most of all a team dedicated to my success both today and in the long run. I have never regretted my choice."

Carrollton, TX***

"Before owning a FASTSIGNS franchise, I was a high school teacher and wanted an independent job. Now, I'm a successful entrepreneur, but I'm not in business by myself. The training and support that I receive from FASTSIGNS is tremendous."
