

North Richland Hills Recreation Centre, North Richland Hills, Texas

Posted 01/2/2013

The 85,000-square-foot center features 11,500 square feet of RHEINZINK 1.0-mm Preweathered Graphite Gray Flat Lock Tile and 1,500 square feet of RHEINZINK Preweathered Graphite Gray Interlocking Reveal Wall Panels from RHEINZINK America Inc. The facility contains amenities for all age groups, including an expansive fitness center, suspended walking/running track, group fitness studios, indoor aquatics center and double gymnasium. The center also features an integrated senior center component and ballroom capacity for 300. The facility is Tarrant County's first LEED certified recreation center.
