Dear Ms. Poust:

J.P. Mascaro & Sons has provided excellent refuse and recycling collection services to the residents of Northampton Township for the last 20 years. The company is continually responsive to our needs and quickly resolves any issues that arise.

As a family owned and operated business, J.P. Mascaro understands the importance of customer satisfaction and Township residents have benefitted from their motto that states "If it's service, it's us". We are currently operating under a five-year contract and hope that they will continue to provide trash collection services in the future.

I would recommend J.P. Mascaro to any municipality considering bids for trash collection services.

Sincerely,

Robert M. Pellegrino
Township Manager
