Jim –Thank you so much. We will be up in Healdsburg in late July to see the plaster but have already heard from my friends that you did a beautiful job and it looks wonderful.

To All Those Who Worked on the Weber Project, The plastered walls in their dining room are fantastic! Just exactly like I wanted, perfect! Most of all the Webers are thrilled & that's what counts. Thank you for making us "all" look good.

From: Bryan Murphy Re: Frey Plastering

One of the key ingredients to a successful, high quality custom home is good subcontractors. Frey Plastering started earning that badge with PCH from day one.

We have been working with Frey Plastering for the past ten years. During that time they have completed many fine projects for us. Being a family run business, there is always one of the Frey brothers on the job, and as a result the final product is consistently good. Frey Plastering provides highly skilled craftspeople that are knowledgeable and capable of producing a myriad of different finishes, both inside and out of the building. They are willing and able to combine "old world" skills with modern materials and are a testament to their trade.

As you can see, I have no qualms in recommending them!

Please do not hesitate to call me with any questions.

Sincerely,

Bryan Murphy
