To Whom it May Concern:

It is with great ease that I recommend the services of Pyramid Contracting, LLC. We have worked together now for over five years.

Pyramid has provided outstanding maintenance and repairs on our multiple offices throughout the state and done so in a timely manner. They were also responsible for site building our impressive facility in the North Charleston area.

Most recently they just completed a major renovation project in our West Columbia location which involved the build out of a functioning USP 797 compound clean room. The result has been amazing and was complimented by the State Board of Pharmacy during inspection. We have been so pleased with the results that we have started the process of Pyramid performing a very similar project in another location.

While projects like these are not without their challenges, these challenges were minor thanks to the experience, knowledge, and diligence of Pyramid Contracting. I cannot say enough about the numerous contacts we have had with the staff and contractors of Pyramid. Each experience has been very positive and I look forward to a continued relationship with what I have found to be an extremely well managed and ethical group.

Sincerely,

Matt Havens
Branch Manager
