Dear Bobby:

I wanted to take a brief moment to compliment you on the wonderful job you did constructing our building at 690 Columbiana Drive. Simply put, you followed through, you returned phone calls, and you did exactly as you promised to do—to me, those are the biggest compliments that can be paid to a general contractor as to any project.

As for the quality of the work, any prospective clients need only look at my website or feel free to come by my office to see for themselves the type of work they can expect if they utilize your company.

Again, thanks for making the process smooth, pain free and giving me a building that I can be proud to showcase.

Sincerely,

G. Randall McKay
