

Testimonials

- Perhaps the most important aspect in our business with Innovative is that we sincerely trust that the core of their business model is to figure out the most cost effective solutions to each project's disposal needs and then pass this value on to the Owner. This has been demonstrated repeatedly on our projects and we are confident in our recommendation of Innovative Earth Solutions.
- Innovative Earth Solutions has provided transportation and disposal of contaminated soils on several of our projects over the past ten years. Jack DiGangi has been instrumental in researching potential disposal sites in coordination with the soils engineers and obtaining the necessary approvals in a very timely manner.
- Innovative Earth Solutions was able to complete their services of transportation and disposal in less than half the time we anticipated which saved us time and money. Our loader operators had no down time with the efficient scheduling of the large amount of trucks. Please notice the recent invoice we paid in full with a bonus added for a job well done.
- Jack and his people are highly professional and provide a hands on management experience assuring that once the removal begins, it will be coordinated closely with the day-to-day construction activities in order that the excavation proceed smoothly and that all necessary manifests and paperwork are obtained without issue.
- It's a pleasure to work with such a professional and dependable staff that Innovative Earth Solutions has. We have some projects that will be requiring your services soon and I will call you with the details.
- Innovative Earth Solutions, LLC always presents its' projects with a high level of professionalism, providing required documentation with each project presented.
- We would like to thank Innovative Earth Solutions, LLC for a project recently completed in Easton Maryland. You had staff on site which was not part of the contract to start the project off as well as reliable and professional truckers throughout the entire project.
- The purpose of this letter is to show Innovative Earth Solutions our appreciation for the successful completion of our project in Chestertown, Maryland. In handling the transportation and disposal of approximately 9,100 tons of petroleum- contaminated soils. The close contact prevented any delays associated with the removal of this material. Trucks and manifest were invariably on-site and on-time as requested.
