Vendors and Subcontractors:

Best Built Inc. is a general contractor from Green Bay Wisconsin that has been traveling nationwide for several years doing commercial work from California to Florida with many spots in between. While bidding these projects in the past, we have had many issues trying to get quotes back and find quality subcontractors. In steps Blue Book! After using Blue Book for a few of our projects there have been a drastic difference in finding quality subs that respond quickly and accurately! It only took a few minutes of our time, a few quick steps, and we were ready to roll. The amount of phone calls we made went from hundreds to practically a few dozen. Thank you Karen and thank you Blue Book!

For more information on Blue Book preview, please contact Karen Murto at 920-265-8946 or email her at kmurto@mail.thebluebook.com.
