October 2, 2014

To whom this may concern:

This letter is in regards to The Blue Book Building & Construction Network. Previously to meeting with Lisa O. we had used their website to develop our own vendor list and find new subcontractors. We recently met with The Blue Book Team and started using their website. It is extremely user friendly and has great resources, makes sending out plans much easier and faster. The support team is very helpful and I am very optimistic this will be a wonderful experience for all involved.

Sincerely,

Alicia Hurst
