To our distinguished subcontractors,

Recently, I was overwhelmed with the news that Restaurant Specialty Group would be bidding on a rather substantial project. Did I mention it was out of state? The Blue Book Network has an invaluable tool called “ProView” as a solution for General Contractors to quickly find qualified subcontractors.

RSG is utilizing ProView to find the critical information we need fast. Please make sure to have a complete and up-to-date ProView so that we can streamline our qualification process. This time-saving tool helped me get the job!

If you don't have a Proview you can get one at www.thebluebook.com .

Your local Blue Book Network Business Development Consultant can help you. Just contact **Lisa Oertel** at (414) 617-6798 to find out what you need to do. Lisa even provided me with service above and beyond what I expected – she was making calls to subs trying to get their bids!

Thank you in advance, we look forward to working with you in 2014 and beyond.
